

# More Security. More Value. Less Effort.

**Microsoft 365 Business Premium** is designed for businesses that require secure, remote work solutions with productivity apps like Office and collaboration tools like Microsoft Teams, plus advanced threat protection and device management.

Now featuring **Microsoft Defender for Business**, Microsoft 365 Business Premium delivers even **more security, more value** with **less effort** than stitching together and managing disparate solutions for similar protection.

**See how Microsoft 365 Business Premium stacks up against other in-market solutions:**
